

OUTDOOR COURT TILES FOR TEXAS

PickleGrip™ modular pickleball surface

A modular court tile for backyard courts through larger community jobs. Quoted in Texas. Product and freight are quoted separately — we do not print a kit price on this page.

The newest advancement

Working in collaboration with players of all levels, a new material formulation was developed specifically for pickleball courts. This patent pending polymer provides increased grip for the pickleball and more traction for the players. The high-grip surface gives better ball bounce, more consistency, and better traction in damp conditions.

From backyard courts to large community operations, PickleGrip pickleball surface is up for the game. Utilizing a flexible spine and patented ShockLock® locking system, it is offered as a modular pickleball surface for outdoor play.

Specifications

Item	As printed on the dealer brochure
Type	High Impact Copolymer Suspended Athletic Surface
Dimensions	12" x 12" x 0.5" (305 mm x 305 mm x 13 mm)

Status	Patent Pending

FROM THE DEALER BROCHURE

Key benefits, as printed

The points below are the manufacturer claims on the dealer brochure we were sent. They are not a lab report we produced, and they are not a price quote.

- Fast, true pickleball bounce – similar to a hardwood court
- Easily installed directly on an existing slab or cracked tennis court with minor prep work
- Highest wet/dry traction of any modular surface available
- 14% more force reduction than hardcourts
  - More comfortable for athletes
  - Force reduction helps keep injuries low and comfort high
- Post tension slab not required
- 16-year warranty and proudly manufactured in Utah, USA
- Patented ShockLock® system for unmatched strength, comfort and lateral stability
- 1186 individual support legs for consistent ball bounce

How we quote a Texas court

Tell us the footprint (a common official minimum playing surface is 30×60 ft) and the delivery ZIP. We come back with a **product price and a freight number**, including lift-gate or residential delivery when you need them. The concrete pad, fence, and lighting are separate if you do not already have a sound, sloped slab.

We do not publish a checkout price on this flyer. Colors, edges, lines, lead time, and freight are confirmed when we quote.

Request a quote at texascourtflooring.com/quote/ or email info@texascourtflooring.com

> Not affiliated with Sport Court® or the U.S. Olympic & Paralympic Committee. We do not claim any flooring is “USA Pickleball approved.” The dealer brochure this flyer is based on does not make that certification claim either. Official court size and 2-inch contrasting lines come from the USA Pickleball rulebook, not from an approved-flooring list.

Texas Court Flooring is a quote-and-ship shop in Fort Worth. Claims on this page are limited to the dealer brochure received November 16, 2026. Product photography is from that brochure and is used with the supplier relationship in view; if you are reviewing a preview, final public use still needs the supplier’s OK to reuse the photos and marks.
